*(exerpted from the Sarasota Housing Authority Admissions and Continued

### **DECONCENTRATION POLICY**

It is the Housing Authority's policy to provide for deconcentration of poverty and encourage income mixing by bring higher income families into lower income developments. We will accomplish this in a uniform and non-discriminating manner.

SHA will take significant steps to affirmatively market our housing to all eligible income groups. Lower income residents will not be steered toward lower income developments. SHA will develop economic uplift programs for its residents designed to increase the income levels of the existing residents. Through economic uplift and self-sufficiency programs SHA intends on achieving some deconcentration.

Prior to the beginning of each fiscal year, we will analyze the income levels of families residing in each of our developments, the income levels of census tracts in which our developments are located, and the income levels of the families on the waiting list. Based on this analysis, we will determine the level of marketing strategies and deconcentration incentives to implement.

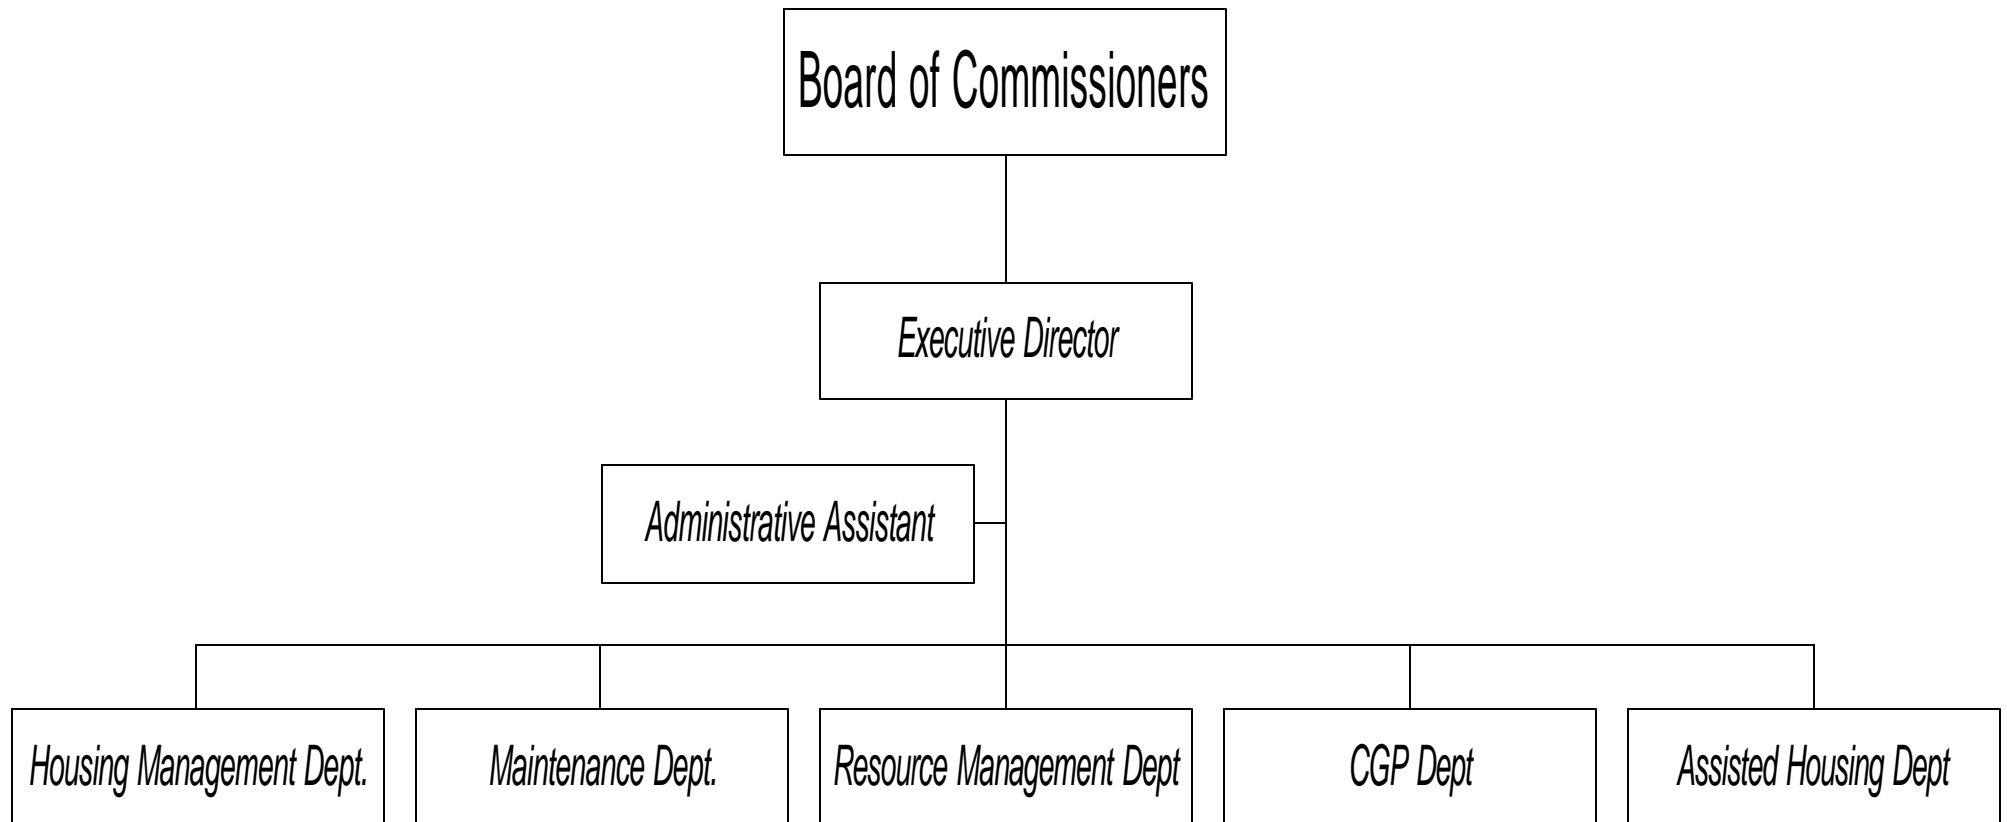

### **DECONCENTRATION INCENTIVES**

The Housing Authority may offer one or more incentives to encourage applicant families whose income classification would help to meet the deconcentration goals of a particular development. Various incentives may be used at different times, or under different conditions, but will always be provided in a consistent and nondiscriminatory manner.

## Section 2: PHDEP Plan Goals and Budget

### A. PHDEP Plan Summary

In the space below, summarize the PHDEP strategy to address the needs of the target population/target area(s). Your summary should briefly identify the broad goals and objectives, the role of plan partners, and your system or process for monitoring and evaluating PHDEP-funded activities. This summary should not exceed 5-10 sentences.

This plan is a comprehensive approach to attack the problems in SHA public housing that are associated with drugs. Its methodology involves all groups that have an interest, the responsibility, the resources, and the ability to eliminate drug-related criminal activity and provide a safer, more positive living environment for residents and their families. SHA residents, law enforcement officials, and the community partners through regular meetings with resident associations is a methodology for sharing information, coordinating programs, and leveraging resources. In addition, the Drug Elimination Task Force is being re-established and used as a forum for sharing success stories and best practices, which can be incorporated into other programs. The Task Force provides continual review on the success of the plan. The Community Service partners provide proven programs that serve the prevention needs of residents of public housing. The residents are taking an active role in eliminating drugs and drug-related criminal activity within their community through tenant patrols and reporting of suspicious activity. The Sarasota Police Department is taking a pro-active role in eliminating drugs and drug-related criminal activity from these public housing communities, even including assisting us with application screening and lease enforcement.
